Vote in the POLL New Planet Eclipse Geo 4 shooting video First time shooting the Ego LV 1.6 VIDEO Also, this thread is for those who need to find a downloadable manual. Since the virtue ban was lifted, I am adding the virtue section back in. Slower trigger pulls add less shots. Faster trigger pulls will add more shots. Fast Ramping Shots are added as soon as you reach the settings in register 5 and 6 Triplet Shot Ramping fires 3 shots every time the trigger is pulled. This speeds up the faster you pull the trigger PSP1 3 shots semi then fast ramping no need to set register 6 as this feature is built in. However, you can set the AFA ROF in register 5 PSP2 3 shots semi then superfast ramping no need to set register 6 as this feature is built in. However, you can set the AFA ROF in register 5 NXL 3 shots then full auto Breakout Full Auto then fast ramping. NXL Breakout First shot is full auto then 3 shots semi then full auto again. I am sure we all know what virtue is. If this thread is helpful to us in helping others. I don't want it deleted because of those who avoid the filters. Thanks That is what manuals are for. As I stated at the top of the thread. It may not be for you. Tee hee tee hee, you so missed me. You should do it. The most advanced upgrade in paintball. Virtue is the only upgrade that actually replaces your gun's engine, improving performance at every level. Virtue is the only accessory in paintball guaranteed to UPGRADE your gun's engine. And Virtue as fully adjustable modes, place virtually an infinite number of firing capabilities at your finger tips. All Virtue boards are backed by a lifetime warranty. Plus if you order from VirtuePaintball.com your board comes with a 30 day money back guarantee. Not only does Virtue offer more features, but every setting is fully adjustable, meaning you can create Virtue starts with 7 base modes of fire, each of which can be customized to your settings, including the Ramp Mode, putting thousands of fun modes at your fingertips. Virtue as enhanced trigger sensitivity, combined with advanced eye logic give Virtue the fastest semiauto mode in paintball. Control when the ramping starts, how much it ramps by as well as the maximum rate of fire. You set the ramp activation speed, ramp percentage, and max rate of fire. The only fully adjustable Ramp Mode with thousands of ramping options. Once you release the trigger the gun goes into Ramp Mode and ramps based on your settings. The full auto on first pull does not repeat until you restart your marker. The first 3 shots are Semi Auto. After the 4th shot the marker ramps to the rate of fire your "Max Rate of Fire" is set to. Once the trigger is let go and 1 second elapses, the 3 shot Semi Auto count restarts. The first 3 shots are Semi Auto. On the 4th shot hold down the trigger, and the marker will shoot full auto at your Max Rate of Fire. Once the trigger is let go and 1 second elapses, the 3 shot Semi Auto count restarts. This setting will make you shoot twice as fast as you can pull the trigger. LBI chips will only work in LBI boards, and Non LBI Chips will only work in Non LBI Boards. Orem, UT 84057. Installation Note These installation instructions are for DM markers. Lucky Un1 Board installation may differ slightly. MAKE SURE THE MARKER IS NOT CONNECTED TO AN AIR SOURCE AND DOES NOT HAVE PAINTBALLS IN THE BREACH DURING INSTALLATION!!!!!! 1. Remove the screws that secure the grips. This will expose the board. 2. Remove your existing microchip. To do this, take a small Allen Wrench and pry up each corner in small increments until the chip is ready to be removed by hand. Be very careful! You can bend your existing chip's pins during this process. 3. Install your new Hater Chip into the socket. The halfmoon on the edge of the Hater Chip should align with the corresponding halfmoon in the socket. For DM guns, the halfmoon on the Hater Chip should point towards the trigger frame. Be careful not to bend or break the pins! 4. Replace grips. 5.

Enter you desired programming. Power The Hater Chip comes equipped with an Instant On feature. Simply press the power button and your marker will instantly power on. To turn the marker off, press and hold the power button until the LED display goes blank. Eye Sensor Operation When the Hater Chip is powered on, the eyes are enabled by default. To disable the eyes, press and hold the eye button on your marker. When the eyes are bypassed, the ROF is capped at 20 cycles per second. When paint and air are added to the marker and the ROF cap is disabled, the marker will shoot as fast as your loader can feed. LED Representation Solid Blue Eyes on; Paint in breach. Solid Red Eyes on; No paint in breach. Blinking Red Eyes disabled. Page 2 and 3 Programming The fourth dip switch m Thank you, for helping us keep this platform clean. Virtue OLED Drills improve your game using similar techniques employed by Pro Paintball Players and Olympic Athletes alike continual improvement through building muscle memory. Each drill is designed to accomplish a small. Short task. Its not like scrimmaging an entire game, but rather breaking down the core components of playing paintball and REPEATEDLY drilling them over and over again until your reaction time improves as your muscle memory builds up. As your reaction time improves. Your game will improve also. Using Virtue OLED Drills, keep two things in mind. Keep track of your top time, and always strive to beat it.

Once you have mastered OLEDs 8 Drills, think about how you could make your own Drill. There are hundreds of Great thing about these boards is they are guaranteed for life by Virtue. 3c0.RcmdId ViewItemDescV4,RlogId p4%60bo7%60jtb9%3Feog4d71f%2B%3E3c014a26fc2b4d0x101 It has an upgraded Virtue board installed. It has seen a lot of games and has scratches but nothing that affects how it works. I just aired it up and shot a hopper of paint through it without any problems. It may needs some minor adjustments like velocity and rate of fire. No leaks. There are also some marks on the regulator where the previous owner used the wrong tool to take it off. But again nothing that affects how it works. Also included are some spare parts so you can change the colors around if you want. Some of the other color pieces are missing to make a whole color kit. But again this gun still works fine and is a great tournament level marker. This item will be insured when shipped that is why shipping is higher. Feel Free to contact me with any. I only ship to the United States. I can combine shipping but contact me first to see what the price will be. This has the LED light indicator. Not going over the detail you can search the web for that. Function perfectly. Please see my other listed items.
